Personal Email Certificates

[Secure e-mail communication]

A *thawte* Personal E-mail Certificate in conjunction with the Web of Trust allows you to secure and guarantee authorship of your e-mail communications by digitally signing and encrypting your e-mails...absolutely FREE!

Certificate features and benefits

- ß A *thawte* Personal E-mail Certificate can be used indefinitely at no cost.
- ß You need only enroll once to obtain multiple certificates.
- ß Ease of use - you can log in to your certificate account from anywhere in the world, 24 hours a day, 7 days a week to view or update your profile/s.
- ß A unique Web of Trust (WOT) community that promotes a culture of trust.

thawte has recognized that all individuals have the right to secure communication. Therefore, the *thawte* Personal E-mail Certificate is offered free of charge in order to promote a culture of trust on the Web.

A *thawte* Personal E-mail Certificate:

- ß Allows you to sign and encrypt all your personal e-mails.
- ß **Signs e-mail** so that the recipient is able to verify the e-mail address that the message originated from - this inspires trust in those who receive your e-mail communication.
- ß **Encrypts e-mail** to prevent anyone except the intended recipient(s) from gaining access to the message contents. This guarantees information privacy and protection.
- ß In conjunction with the Web of Trust, you are able to insert you name into your certificate proving your identity.

Free Support Resources

- ß Email support for queries relating to the requesting and downloading of personal email certificates.
- ß Unlimited access to *thawte's* extensive online knowledge base and support documentation.
